Find data

My question is…

Your question will direct you toward different tools and strategies for pulling the data you need. Here are some reminders:

- For state level data (to compare districts or schools), visit the OSPI web site.

- Use exports, canned reports, or data mining in Skyward for many elements that relate to the current year. While you can easily go back in time for some questions, it can be incredibly challenging for other pieces. Skyward is also the best choice for exporting grades for a whole class, or get current attendance and discipline for a group.

- Visit Homeroom to create specific groups of students and then "shop" for data elements about the students or their performance.

Data source(s)

- ❑ Skyward
- ❑ Homeroom
- ❑ EDS/CEDARS
- ❑ Other _____
- ❑ OSPI
- ❑ ERDC

Strategies

- ❑ Extract or download
- ❑ Canned report
- ❑ Data mining
- ❑ Other _____

Data elements

- ❑ Year(s)
- ❑ Last name
- ❑ First name
- ❑ Identifier (e.g., SSID)
- ❑ Demographic(s)
- ❑ Program information
- ❑ Other _____
- ❑ Attendance
- ❑ Discipline
- ❑ Assessment scores
- ❑ Credits earned
- ❑ Grades
- ❑ GPA

Other notes and reminders

Jot down any additional information about how you were able to pull the data you will need to answer your question. For example, the name of the student group you created or the report you used.
